\$1,500
per person
+ airfare

Highlights in Nicaragua

- > Hands-on engagement with EOS staff and clients.
- > Work alongside Nicaraguan staff to build an oven, empowering local women to start their own micro-bakery business.
- > Unique cultural experiences surrounded by incredible natural beauty.

Day 1

Arrive at Managua International Airport (MGA). Meet EOS International staff for a welcome reception and group dinner at Hotel Las Mercedes.

Day 2

Join fellow travelers for breakfast (daily) and meet EOS Nicaragua office staff for orientation and an informational session with EOS CEO Wes Meier. Help an EOS client build a fuel-efficient oven alongside EOS staff, then tour a bakery operated by client Chepita Caballero to see first-hand the economic impact EOS ovens can have not only on individual families, but also the villages they call home.

Day 3

Visit a rural Nicaraguan community that has benefited from clean water provided by EOS' CTI-8 Water Chlorinator. Spend an afternoon at Selva Negra Ec lodge, where guests can tour a coffee farm and may even spot howler monkeys and other wildlife while hiking through the Virgin Cloud Rainforest. End the evening with dinner and a roundtable discussion led by EOS CEO Wes Meier highlighting the organization's successes, challenges and strategic growth opportunities.

Day 4

Explore the colonial city of Leon, a picturesque town near the shores of the Pacific Ocean. Pass by a line of volcanoes on the way for an opportunity to see some of Nicaragua's most famous natural formations. Visit Central America's second-largest cathedral and shop for souvenirs to take home. Enjoy some rest and relaxation on the beach, then return to Hotel Las Mercedes for a final group farewell dinner.

Day 5

Depart for home with wonderful memories
